

JPSA Appoints Matt Parker Sales Manager

Manchester, New Hampshire, USA – J. P. Sercel Associates Inc. (JPSA) announces the appointment of Matt Parker to the position of Sales Manager, (Central Region). Matt has extensive experience in capital equipment sales and service with more than ten years' experience as Industrial Sales Manager for Light Machines, a Manchester, NH company that builds CNC machine tools and robotics. Prior to that position, Matt worked as Service Manager for the same company.

In his new position, Matt will be responsible for coordinating sales activity and working with reps and sales organizations in the Central U.S. geographic territories.

JPSA products and services include UV excimer, DPSS and ultrafast laser micromachining systems, UV and VUV laser beam delivery systems, UV laser materials processing development, optical damage testing, and excimer laser refurbishment services. JPSA operates a high-performance UV laser job shop as well as a systems engineering and manufacturing business.
